

## PRM-150 Line Level Pre-Amplifier

### Features

- Boosts the audio signal from 600 ohm CO and audio page ports to a level capable of driving a maximum of 150 self-amplified speakers.
- Will compensate for audio signal loss on long cable runs.
- Can function as a one-way paging CO port interface.
- Contains a volume control.
- When used with Wheelock power supply (RPS-2406) talk battery is supplied to the CO port.
- Operating Voltage/Current: 24 VDC/25mA.
- In/Out Impedance: 600 ohms/4 ohms.
- Input level: -15dBm to + 10dB.
- Max audio output level: 0.8 VRMS.

### Specifications & Ordering Information

Model Number	Order Code	Product Description
PRM-150	3793	Line Level Pre-Amplifier Interface 1-Way Page to a CO Port

PRM-150

## AFT-100 AM/FM Tuner

### Features

- 2 independent outputs with separate volume controls:
  - line level for background music over a paging system.
  - 1/2 watt for music-on-hold for a telephone system.
- Tone control for bass and treble.
- Built in monitor speaker and telescoping/pivoting FM antenna.
- Analog tuning dial with automatic frequency control (AFC) circuit.
- Wall mountable, barriered screw terminals.
- Includes external 300 ohm FM dipole antenna.
- On/Off switch, tuning LED.
- Can be powered by 12 or 24 VDC.
- Recommended power supply: EPS-1205

### Specifications & Ordering Information

Model Number	Order Code	Product Description
AFT-100	4713	Tuning Ranges FM: 88-108 MHz AM: 540-1600 KHz

AFT-100

## Microphone

Wheelock MIC-400 features durability, value and performance, making it ideal for commercial PA applications.

### Features

- Smooth natural voice reproduction.
- Extended frequency response.
- Dynamic, low impedance.
- Unidirectional pickup pattern.
